## DECLARATION

The undersigned herewith express their wish to strongly support the aims of the Gulliver framework to create exchange and working facilities primarily for individual artists and intellectuals in the context of a new emerging Europe, aiming at the maintenance and further realisation of human rights and fundamental freedoms.

They accept to be considered as board of the informal working body Gulliver to ensure the implementation of the aims of the framework into the respective instruments and projects.

To add a concrete dimension to the agreements reached in Helsinki in the field of culture, the undersigned will act as the advisory board for the Felix Meritis Foundation which acts as the secretariat of Gulliver and the legal body to initiate and develop the projects and the work of Gulliver.
